

FUNCTION DISPLAY

Mobile Monitoring Management Platform

RMVS is a system of centralized management and monitoring of all kinds of vehicles based on wireless network. Perform real-time monitoring, GPS/BD positioning, video storage, vehicle scheduling, alarm and alarm, etc.

Industrial Hisilicon 3520D image processor chip

Choose the electronic material of industrial grade specification, ensure the life of the component and the stability of the whole machine.

Adopt low heat resistance aluminum profile to make equipment shell, strong and durable, protect heat dissipation.

The hard disk is shockproof

Industrial rubber bracket to prevent the collision of hard disk in the process of driving, to protect the data security of hard disk.

Exclusive damping technology to build military grade quality.
